

CODING

Accurate and efficient coding is crucial to your organization's ability to meet financial and compliance goals. Backlogs, miscoding, high coder turnover rates and imminent changes with the ICD-10 transition represent significant challenges. That's where Precyse comes in. With a comprehensive range of proven coding services, we deliver outstanding quality and accuracy. Supported by credentialed colleagues who receive ongoing education, our team is recognized for its consistently demonstrated results.

With options that include full outsourcing of your coding function, dual coding, professional fee coding, coding audits and interim staffing to complete a backlog or outsource of a specific patient type, our medical coders work with clients to address their specific needs. Precyse education and training is second to none; we provide you with staff well-versed on the latest changes in coding regulations and specialized coding

Comprehensive solutions from the most experienced coders in the industry supported by an advanced coding technology platform.

for the newest clinical services. We have vast experience with coding hundreds of thousands of patient records and are experts in all types of inpatient, outpatient and professional fee coding. Our medical coders go through a rigorous recruitment process including pre-employment quality testing that only 35% of credentialed medical coders pass. Precyse colleagues are supported by ongoing training and education through Precyse University, the nation's leading ICD-10 education program.

When you create a coding partnership with Precyse, you position your department to add noticeable value to overall hospital operations. By bringing together coders, physicians and clinical documentation improvement specialists on our powerful technology platform, Precyse allows you to support improved care delivery, drive business results and accelerate your revenue cycle like never before.

precyse®

Sparking innovation in healthcare information™

FEATURES AND BENEFITS

- Integrated solutions and expert services comprise Precyse's innovative approach
- Full range of coding outsourcing services
- Options available for professional fee, dual coding or outsourced coding by patient type to address your needs
- Experienced staff have coded more than 1.6 million records annually
- Rigorous recruitment exams, credentialing requirements, reference and background checks required for employment
- Supported by precyseCode™, the only single integrated platform for inpatient and outpatient computer assisted coding (CAC) and clinical documentation improvement (CDI) efforts
- Cross-country client support with Precyse's national reach
- Robust management support structure
- Supported by the Precyse University coding education program

RESULTS

- Produce complete, quality code assignments
- Streamline coding operations and scale coding resources
- Improve accuracy of case mix index while decreasing claim denials
- Reduce levels of discharged not final billed (DNFB)
- Ease coder recruiting and retention challenges
- Reduce lost reimbursements, coding backlogs and noncompliance risk
- Improve results of internal and external audits
- Improve days in AR

OPTIONS

- Comprehensive Outsourced Coding
- Coding Outsource by Patient Type
- Dual Coding
- Backlog Resolution
- Interim Staffing
- ICD-9 Coding and ICD-10 Coding – Inpatient and Outpatient including Same Day Surgery, Emergency Department, Observation & Diagnostic Tests and Treatments
- Professional Fee Coding
- International and Domestic Coding
- Coding Audits
- precyseCode Computer Assisted Coding
- Clinical Documentation Improvement services and technology

SUCCESS STORY

“Our coding process needed to help the hospital improve revenue cycle while maintaining a sound and defensible record of care.”

Karen Lawler, MPS, RHIA, CHPS, FABC
Director of HIM and Privacy Officer
Stamford Hospital, CT

STAMFORD HOSPITAL: SEAMLESS PARTNERSHIP MAKES THE DIFFERENCE.

The HIM department of Stamford Hospital was feeling the effects of not having a defined and sustained coding productivity and quality model. Symptoms included unsatisfactory DNFB numbers and increasing dissatisfaction among medical staff with clinical data processes and workflow. With no internal HIM Director in place at the time, Stamford decided to partner with Precyse to help lead the Stamford coding team to better performance and the hospital to better financial results.

The Precyse team drove a 53% improvement in documentation and coding metrics in the first year of the relationship. Turnaround time to process patient records from receipt through finalization and coding improved 33%. Turnaround time for billing requests, post-code submission decreased from weeks to hours, enabling a 25% reduction of days on hold for inpatient accounts.
