CareCloud Partners with Precyse for Physician Office ICD-10 Education

Company offers providers comprehensive ICD-10 training

Wayne, Pa., and Miami, Fl., October 23, 2014—CareCloud, the leading provider of cloud-based practice management, electronic health records (EHR), and medical billing software and services, has partnered with Precyse/HealthStream to offer its clients a powerful and unique ICD-10 education program for the physician office/ambulatory market. Precyse and HealthStream have teamed together to offer a unique and comprehensive ICD-10 education solution that is delivered exclusively through HealthStream's workforce development platform. CareClouds thousands of medical provider clients in 48 states will join the more than 1.6 million learners already using the Precyse University ICD-10 education solution. CareCloud has offered clients leveraging its cloud-based platform access to the following revolutionary benefits and features of the Precyse University Physician Office ICD-10 Education Solution:

- A single solution for all ICD-10 education needs within a practice or clinic;
- Diversified education providing each impacted population with the specific tools and training needed to be successful in ICD-10;
- Myriad of advanced courseware, applications and tools to make education more practical, accessible and relevant to physicians' concerns, needs and time constraints; and
- Exclusive access to Precyse University's expansive, one-of-a-kind ICD-10 education program.

"With the ICD-10 transition just months away, we understand that many providers are still concerned about being prepared to make the switch," explains, Kathleen Thompson, Senior Director of Product Management for CareCloud. "Through our partnership with Precyse/HealthStream, our clients will receive a comprehensive solution for successful migration to ICD-10 in their coding and clinical care workflows, while realizing the benefits of sustained reimbursement levels, improved outcome indicators and fewer claim denials."

Precyse and HealthStream have partnered to offer a one-stop solution for all of the ICD-10 education needs within physician practices, clinics, and other ambulatory settings. With Precyse's innovative ICD-10 education programs and HealthStream's market leading platform for workforce development, healthcare providers have made the ICD-10 solution from Precyse and HealthStream the healthcare industry's top choice.

"The Precyse University ICD-10 Physician Office Solution is built to fully prepare physicians and all members of their offices and/or clinics for the new world of ICD-10," explains Thomas Ormondroyd, vice president and general manager of Precyse Learning Solutions. "Although ICD-10 seems daunting and burdensome, it actually offers tremendous opportunity to optimize reimbursement, minimize denials and appeals and improve clinical care through more valuable and detailed data. Our solution is designed to ease the change to ICD-10 and have physicians and their staffs ready for its arrival."

Unlike its competitors, the Precyse University solution is fully built and tested with more than 300 courses, applications and tools specifically for physicians' needs. In addition, most courses are mobile-ready for use on a computer, iPad® or mobile device to make education available anywhere and at any time. Innovative tools and resources such as video games, labs, simulators and animations are available as well.
